The input by each individual Judge, the Referee and the Technical Panel are transferred into a calculation computer, including, if possible, a complete back-up system.

b) Electronic marks display/scoreboard

Rule 353

ISU Judging System - determination and publication of results

1. Basic Principles of Calculation

- a) Every Section of a Pattern Dance, every Element (i.e. Required Element of the Short Program/Short Dance/Free Dance or Element of the Well Balanced Free Skating Program) has a certain Base Value indicated in the Scale of Value (SOV) chart published in an ISU Communication.
- b) Each Judge identifies for each Section/Element one of the seven grades of execution. Each grade has its own positive or negative numerical value also indicated in the SOV chart.
- c) The panel's Grade of Execution (GOE) is determined by calculating the trimmed mean of the numerical values of the Grades of Execution awarded by Judges.
- d) The trimmed mean is calculated by deleting the highest and the lowest values and calculating the average of the remaining values. In the case when there are fewer than five (5) Judges, the highest and lowest values are not deleted from the calculation.
- e) This average will become the final Grade of Execution of an individual Section/Element. The panel's GOE is rounded to two decimal places.
- f) The panel's score for each Section/Element is determined by adding the trimmed mean GOE of this Section/Element to its Base Value.
- g) The panel's scores for all the Sections/Elements are added giving thus the Total Elements Score.
- h) In Single & Pair Skating:
 - i) Jump combinations are evaluated as one unit by adding the Base Values of the jumps included and applying the GOE with the numerical value of the most difficult jump.
 - ii) Jump sequences are evaluated as one unit by adding the Base Values of the two highest value jumps, multiplying the result by 0.8 and after that applying the GOE with the numerical value of the most difficult jump. The factored Base Value of the jump sequence will be rounded to two decimal places.
 - iii) Any additional element or elements exceeding the prescribed numbers will not be counted in the result of a participant. Only the first attempt (or allowed number of attempts) of an Element will be taken into account.
 - iv) In the Short Program of Single Skating the Base Values (but not the GOEs) for all jump Elements started in the second half of the

program will be multiplied by a special factor 1.1 in order to give credit for even distribution of difficulties in the program. Each factored Base Value for all jump Elements performed in the second half of the Short Program will be rounded to two decimal places. The second half commences in the middle of the maximum time which means 1 min. 25 sec.

- v) In the Free Skating of Single Skating the Base Values (but not the GOEs) for all jump Elements started in the second half of the program will be multiplied by a special factor 1.1 in order to give credit for even distribution of difficulties in the program. Each factored Base Value for all jump Elements (Single Skating) performed in the second half of the Free Skating program will be rounded to two decimal places. The second half commences in the middle of the required time without taking into account plus or minus 10 seconds allowance.
- i) In Ice Dance, Combination Lifts are evaluated as one unit by adding the Base Values of the two first executed Types of Short Lifts and then applying the GOE. The GOE of the Combination Lift is equal to the sum of the numerical values of the corresponding GOE of these two first executed Types of Short Lifts.
- j) Each Judge also marks the Program Components on a scale from 0.25 to 10 with 0.25 points increments.
- k) The panel's points for each Program Component are obtained by calculating the trimmed mean of the Judges results for that Program Component. The trimmed mean is calculated in the manner described above in sub-paragraph d).
- l) The trimmed mean of each Program Component is rounded to two decimal places.
- m) The panel's points for each Program Component are then multiplied by a factor as follows (same for Junior and Senior):

Men:	Short Program:	1.0	Free Skating:	2.0
Ladies:	Short Program:	0.8	Free Skating:	1.6
Pairs:	Short Program:	0.8	Free Skating:	1.6
<u>Ice Dance:</u>	<u>Short Dance:</u>	<u>0.8</u>	<u>Free Dance:</u>	<u>1.2</u>
<u>Pattern Dance: 0.7</u>				

The factored results are rounded to two decimal places and added. The sum is the Program Component Score.

n) Deductions are applied for certain violations specified in the Regulations as follows:

Violation:	As per:	Points:
Program time	<u>Rule 502</u>	- 1.0 for every 5 seconds lacking or in excess
Illegal Element/Movement	<u>Rule 504, paragraph 2</u>	- 2.0 per violation
Costume and prop	<u>Rule 501, paragraph 1</u>	- 1.0 <u>per program</u>
Part of the costume/decoration falls on the ice	<u>Rule 501, paragraph 2</u>	- 1.0 <u>per program</u>
Fall	<u>Rule 503, paragraph 1</u>	<ul style="list-style-type: none"> ▪ Single Skating: -1.0 for every Fall ▪ Pair Skating and Ice Dance: -1.0 for every Fall <u>by</u> one partner and -2.0 for every Fall by both partners.
<u>Late start</u>	<u>Rule 350, paragraph 2</u>	- 1.0 for start between 1 and 30 seconds late
Interruption in performing the program	<u>Rule 503, paragraph 2</u>	For every Interruption of: <ul style="list-style-type: none"> ▪ <u>more than 10 seconds up to 20 seconds</u>: - 1.0 ▪ <u>more than 20 seconds up to 30 seconds</u>: - 2.0 ▪ <u>more than 30 seconds up to 40 seconds</u>: - 3.0
<u>Interruption of the program with allowance of up to three (3) minutes to resume from the point of interruption.</u>	<u>Rule 515</u>	- 5.0 <u>per program</u>
<u>Choreography restrictions</u>	<u>Pair Skating:</u> <u>published in ISU Communications;</u> <u>Ice Dance: Rules 709, paragraphs 1.d), g), h) and j) and 710, paragraphs 1.f), h) and j)</u>	-1.0 <u>per program</u>

Extra Elements (Ice Dance only)	<u>Required Elements and principles of calling published in ISU Communications</u>	- 1.0 per violation
Music requirements (Ice Dance only)	Rules 707, paragraph 5, 709, paragraph 1.c)(i) and (ii), and 610, paragraph 1.c)	- 2.0 <u>per program</u>
Tempo specifications (Ice Dance only)	Rules 707, paragraph 5 and 709, paragraph 1.c)(iii)	- 1.0 <u>per program</u>
Dance Lift exceeding permitted duration (Ice Dance only)	<u>Rule 704, paragraph 16</u>	- 1.0 per Dance Lift

2. Determination of results in each Segment of the Competition

- The Total Segment Score for each Skater/Pair/Couple in each Segment of a competition (Short Program/Short Dance, Free Skating/Free Dance or Pattern Dance(s)) is calculated by adding the Total Elements Score and the Program Component Scores, subtracting any deductions for violations described in sub-paragraph 1.n).
- In Ice Dance, for events with two (2) Pattern Dances, the Total Score for each dance will be multiplied by a factor of 0.5.
- The Skater/Pair/Couple with the highest Total Segment Score is placed first, the Skater/Pair/Couple with the next highest Total Segment Score is placed second and so on.
- If two or more Skaters/Pairs/Couples have the same result, the Total Elements Score will break the tie in the Short Program/Short Dance and the Pattern Dance(s). The Program Components Score will break the tie in the Free Skating/Free Dance. If these results are also equal, the Skaters/Pairs/Couples concerned will be considered as tied.
- For any Segment where a Segment factor is applied, the factored Segment Scores are rounded to two (2) decimal places.

3. Determination of the final result

- The Total Segment Score of the Short Program/Short Dance or Pattern Dance(s) and Free Skating/Free Dance are added and the result constitutes the Final Score of a Skater/Pair/Couple in a competition. The Skater/Pair/Couple with the highest Final Score is first etc.
- In cases of ties after the Final Score the Skater/Pair/Couple with the highest score for the last skated Segment is placed first etc. If there is a tie in the highest score, the better placement will decide the better

place. In Ice Dance, if two Pattern Dances are to be skated, both dances are even in value. There are no tie-breaking criteria.

- c) If there is a tie for this Segment, the placement of the previously skated Segment will count for the better place etc. If there is no previous Segment, Skaters/Pairs/Couples are tied.

4. Publication of results

- a) In the publication of the overall results of an event, the eliminated Competitors (Competitors who did not qualify for the next Segment either due to the insufficient scores or due to withdrawal) shall be listed following the Competitors who have successfully finished the competition and such eliminated Competitors will be listed in order of their placement after their last completed Segment.

Disqualified Competitors will lose their placements and be officially noted in the intermediate and final results as disqualified (DSQ). Competitors having finished the competition and who initially placed lower than the disqualified Competitor(s) will move up accordingly in their placement(s).

- b) Following each Segment, the Total Elements Score, the panel's points obtained in each Program Component, the Program Component Score, the deductions and the Total Segment Score of every Skater/Pair/Couple must be published.
- c) Following each Segment a printout indicating the Base Values of all the Elements and the GOEs and points for the Program Components from every Judge will be issued. For ISU Championships, Olympic Winter Games, Senior Grand Prix of Figure Skating Events and Final, the Judges' marks are listed in a random sequence without any reference to specific Judges' names (anonymity).
- d) The final result must be published as soon as possible after the conclusion of the event. This must include for each Skater/Pair/Couple:
 - the final place;
 - separately, the placing in each Segment of a competition.
- e) On conclusion of the event the total points (Final Score) of each Skater/Pair/Couple must be published.

Rule 354 **Team Results by Member**

The relevant ISU Bodies shall provide and publish in an ISU Communication a calculation system to establish Team Results by Member in International Competitions. This system shall be based on the results of the individual competitions in each disciplines, namely Ladies Single Skating, Men Single

Skating, Pair Skating and Ice Dance. It may be implemented as an option by organizing Members of International Senior, Junior and Novice Competition and may be duly announced in the Announcement of the competition.

Rule 355 **World ranking systems**

- Those world rankings are updated and published on the ISU website.

Rules 356 – 357 (reserved)

Rule 358 **Awards**

Rule 503
Falls and Interruptions

1. A Fall is defined as loss of control by a Skater with the result that the majority of his/her own body weight is on the ice supported by any other part of the body other than the blades e.g. hand(s), knee(s), back, buttock(s)

or any part of the arm. For every Fall there shall be a deduction (see Rule 353, paragraph 1.n).

2. An Interruption is defined as the time elapsed between the moment a Skater stops performing the program until the moment he resumes performing the program. For every Interruption of more than ten (10) seconds, there shall be a deduction (see Rule 353, paragraph 1.n.). If an Interruption lasts more than forty (40) seconds, an acoustic signal is produced by the Referee and the Skater/Pair/Couple is withdrawn. For cases of interruption due to adverse conditions unrelated to the Skater or related to the Skater's health or equipment, see Rule 515.

Rule 504

Marking of Short Program/Short Dance and Free Skating/Free Dance

1. Elements Score

As per Rule 353, paragraphs a) and b), the Scale of Values chart of the elements of Short Program/Short Dance and Free Skating/Free Dance is published and updated in ISU Communications. This Scale of Value contains Base Values of all the elements and the numerical values of the seven Grades of Execution.

a) Base Value

The Technical Panel will determine the name and, when required, the Level of Difficulty of every element. Base Values of elements are measured in points and increase with the increasing difficulty of the elements. The difficulty of the elements depends:

Single & Pair Skating	Ice Dance
<ul style="list-style-type: none"> - in jumps (Singles and Pairs) and throw jumps (Pairs): on the names of the jumps or the throw jumps listed in order of their difficulty (Toeloop, Salchow, Loop, Flip, Lutz, Axel) and the number of revolutions; - in lifts (pairs): on the Groups of the lifts (1 - 5), their names and Levels of Difficulty; - in twist lifts (Pairs): on the number of revolutions and Levels of Difficulty; - in death spirals (Pairs): on the names and Levels of Difficulty; 	<p>on their Levels of Difficulty</p>

- in other elements: on their names and Levels of Difficulty.	
---	--

b) Levels of Difficulty of elements

The description of characteristics (features) that give an element a certain Level of Difficulty is published and updated in ISU Communications.

Single & Pair Skating	Ice Dance
Lifts, twist lifts and death spirals (pairs), spins and steps (singles and pairs) are divided depending on their difficulty in five (5) Levels of Difficulty according to the number of features achieved: Basic Level – in case of no features, Level 1 – in case of one feature, Level 2 – in case of two features, Level 3 – in case of three features and Level 4 – in case of four or more features.	All Required Elements are divided into four (4) Levels of Difficulty depending on their difficulty, except <u>Choreographic Elements</u> .

c) Grade of Execution (GOE)

Each Judge will mark the quality of execution of every element depending on the positive features of the execution and errors on the seven Grades of Execution scale: +3, +2, +1, Base Value, -1, -2, -3.

As per Rule 353, paragraphs 1.h) (i) and (ii) and 1.i), jump combinations, jump sequences (in Single & Pair Skating) and Combination Lifts (in Ice Dance) are evaluated as "one unit".

The guidelines for marking GOEs are published and updated in ISU Communications.

2. Illegal Elements/Movements

Every Illegal Element/Movement as defined in Rules 610 (Single & Pair Skating), 709, paragraph 3 (Short Dance), 710, paragraph 3 (Free Dance) performed in the program will be penalized by a deduction (see Rule 353, paragraph 1.n). If an Illegal Element/Movement is performed during the execution of any element, the deduction for an Illegal Element/Movement will apply and the element will be called:

- Single & Pair Skating: Basic Level if the requirements for at least Basic Level are fulfilled;
 - Ice Dance: Level 1 if the requirements for at least Level 1 are fulfilled.
- Otherwise the element will be called “no level”

3. Program Component Score

a) Definition of Program Components

The Skater's/Pair's/Couple's whole performance is evaluated by five (5) Program Components: Skating Skills, Transitions/Linking Footwork and Movements, Performance/Execution, Choreography/Composition, Interpretation of the Music/Timing.

Skating Skills

Overall skating quality, edge control and flow over the ice surface demonstrated by a command of the skating vocabulary (edges, steps, turns etc.), the clarity of technique and the use of effortless power to accelerate and vary speed. Varied use of power/energy, speed and acceleration.

In evaluating the Skating Skills, the following must be considered:

- Balance, rhythmic knee action and precision of foot placement;
- Flow and effortless glide;
- Cleanness and sureness of deep edges, steps and turns;
- Power/energy and acceleration;
- Mastery of multi directional skating;
- Mastery of one foot skating;
- Equal mastery of technique by both partners shown in unison (Pair Skating and Ice Dance).

Transitions/Linking Footwork and Movements

The varied and/or intricate footwork, positions, movements and holds that link all elements, including the entrances and exits of those elements.

In evaluating the Transitions/linking Footwork and Movements, the following must be considered:

- Variety;
- Difficulty;
- Intricacy;
- Quality (including unison in Pair Skating);
- Balance of workload between partners (Pair Skating and Ice Dance);
- Variety of holds (not excessive side by side and hand in hand) (Ice Dance).

Performance/Execution

Performance: involvement of the Skater/Pair/Couple physically, emotionally and intellectually as they translate the intent of the music and choreography.

Execution: quality of movement and precision in delivery. This includes harmony of movement in Pair Skating and Ice Dance.

In evaluating the Performance/Execution, the following must be considered:

- Physical, emotional and intellectual involvement;
- Carriage;
- Style and individuality/personality;
- Clarity of movement;
- Variety and contrast;
- Projection;
- Unison and "oneness" (Pair Skating and Ice Dance);
- Balance in performance between partners (Pair Skating and Ice Dance);
- Spatial awareness between partners - management of the distance between partners and management of changes of hold (Pair Skating and Ice Dance).

Choreography/Composition

An intentional, developed and/or original arrangement of all types of movements according to the principles of proportion, unity, space, pattern, structure and phrasing.

In evaluating the Choreography/Composition, the following must be considered:

- Purpose (idea, concept, vision, mood);
- Proportion (equal weight of parts);
- Unity (purposeful threading of all movements);
- Utilization of personal and public space;
- Pattern and ice coverage;
- Phrasing and form (movements and parts structured to match the phrasing of the music);
- Originality of purpose, movement and design;
- Shared responsibility in achieving purpose (Pair Skating and Ice Dance).

Interpretation of the Music/Timing

The personal and creative translation of the rhythm, character and content of music to movement on ice.

In evaluating the Interpretation of the Music/Timing, the following must be considered:

- Effortless movement in time to the music (Timing);
- Expression of the music's style, character and rhythm;
- Use of finesse* to reflect the nuances of the music;
- Relationship between the partners reflecting the character of the music (Pair Skating and Ice Dance);
- Appropriateness of the music (Ice Dance);
- Skating primarily to the rhythmic beat for Short Dance and keeping a good balance between skating to the beat and melody in the Free Dance (Ice Dance).

- * Finesse is the Skater's refined, artful manipulation of nuances. Nuances are the personal artistic ways of bringing subtle variations to the intensity, tempo, and dynamics of the music made by the composer and/or musicians.

b) Marking of Program Components

After completion of a program, as per Rule 353, paragraph j), each Judge marks the Program Components on a scale from 0.25 to 10 with increments of 0.25. Points given by the Judges correspond to the following degrees of the Program Components: less than 1 – extremely poor, 1 - very poor, 2 - poor, 3 - weak, 4 - fair, 5 - average, 6 - above average, 7 - good, 8 - very good, 9 - 10 - outstanding. Increments are used for evaluation of performances containing some features of one degree and some of the next degree.

Guidelines for marking Program Components are published and updated in ISU Communications.

4. Deductions

Deductions are applied for certain violations of the Regulations (see Rule 353).

Rules 504 – 510 (reserved)

III. TECHNICAL RULES FOR COMPETITIONS IN SINGLE & PAIR SKATING AND ICE DANCE

A. General

Rule 511

Announcement of entries and panels of Officials

For the purpose of verifying the compliance of competitions and categories other than ISU Events, with requirements for World Ranking consideration as published in ISU Communications, preliminary unofficial announcements of entries and Officials must be made by the Organizing Committee at any time after the closing of entries but at the latest seven (7) days before the competition starts. This provision is optional for competitions and categories not considered for World Ranking.

Rule 512

Draws

1. The draws for the starting order of all Segments are made publicly by the Referee. The Referee should ask the Organizing Committee to check the correct spelling of the names of the Competitors and Officials.
2. Starting numbers shall be drawn by each Competitor, if present, by official representatives of their Member or by members of the Organizing Committee.
3. The official announcement of the entries and of the panels of Officials is made by the Referee of each competition at the time of the first starting order draw of that competition. Different procedures may apply for ISU Events and the Olympic Winter Games.

Rule 513

Draws for starting orders

The draw for starting order of the Competitors for each Segment of the event shall be conducted as follows:

1. Short Program/Short Dance or Pattern Dance(s):
 - a) i) select a Competitor to draw for the Member to start the draw;
 - ii) draw the starting order of the Competitors proceeding in alphabetical order by Member from the Member drawn to start;

This procedure does not apply to ISU Championships and Olympic Winter Games (see Rule 520, paragraph 1).

- b) For the Pattern Dances only, if two Pattern Dances are to be skated:
 - the Couples are divided into two groups. If the number of Couples is not evenly divisible by two, the second group shall contain one more Couple than the first group;
 - the second Pattern Dance is started by the first Couple in the second group followed by the rest of the Couples in the order in which they were drawn. The Couples in group one follow group two, starting with Couple number one of the first group;
 - an exception to this Rule is permissible when there are only two Couples. In this case, the first Couple would start each Pattern Dance. This procedure must be agreed to by both Couples.

2. Free Skating/Free Dance

- a) The starting order is determined from the result of the Short Program/Short Dance or Pattern Dance(s);
- b) As soon as possible after the determination of the results of the preceding Segment, the Referee, in the presence of at least one Competitor, shall divide the Competitors into the smallest possible number of equal groups (see Table I of the Technical Rules), in the order in which they finished the preceding Segment;
- c) If the number of Competitors is not equally divisible, the last group to skate (and as many preceding groups as necessary) must contain one more Competitor than the first group. The lowest placed group must skate first, the next lowest second and so on;
- d) If two or more Competitors are tied for the same place at the end of the preceding Segment, the Competitors concerned shall be drawn in the same group. If necessary the immediately preceding group shall be smaller by the number of Competitors so added to the following group;
- e) The order of skating in each group shall be determined by lot and each Competitor shall be drawn in the order of placement in the preceding Segment of the competition, i.e. with the best placed Competitor drawing first and including those tied. The order of the draw between the tied Competitors shall first be determined by a separate draw prior to the main draw.

- 3. If one or more Competitors having obtained scores that would have qualified them for the next Segment decide to withdraw their participation before the beginning of that Segment, then the open spot(s) will not be substituted by any other Competitor(s) and the number of maximum qualified Competitors for that Segment will be reduced by the number of withdrawn Competitors.

If the withdrawal(s) is announced after the draw for the starting order of the following Segment, then the starting order and the warm-up groups will not be changed and the spot of the withdrawn Competitor(s) remains empty.

4. If one or more Competitors having obtained scores that would have qualified them for the next Segment are disqualified before the beginning of that Segment, then the open spot(s) will be filled by the first placed Competitor(s), who, in the concerned Segment, initially had not reached the following Segment.

Such Competitors will receive the first starting numbers in the first warm-up group and this warm-up group will be complemented with the concerned number of Competitors. If necessary:

- (i) the starting order of the added Competitors in the first subgroup will be decided by an additional separate draw;
- (ii) Rule 514, paragraph 3 shall apply.

Rule 514 **Warm-up periods**

1. Warm-up periods must be allotted to all Competitors.
2. The duration and maximum size of each warm-up (see Table II of the Technical Rules) are:
 - a) Single Skating – Short Program, Free Skating – six (6) minutes duration – maximum six (6) Competitors;
 - b) Pair Skating – Short Program, Free Skating – six (6) minutes duration – maximum four (4) Pairs;
 - c) Ice Dance – Pattern Dance(s) – four (4) minutes duration: one (1) minute without music followed by three (3) minutes of the 6th (last) tune of the ISU Ice Dance music – maximum five (5) Couples;
 - d) Ice Dance – Short Dance, Free Dance – five (5) minutes duration – maximum five (5) Couples;
3. In the event one or more Competitors tied or added as per Rule 513, paragraph 4 are included in the same group, the maximum number permitted to warm up at the same time may be exceeded by one Competitor in Single Skating. However, if the maximum number permitted is exceeded by two or more Single Skaters or by one or more Pairs or Ice Dance Couples, the group in question shall be divided into two subgroups with a separate warm-up for each of them. The Competitors of each subgroup skate immediately after the warm-up of their subgroup to be immediately followed by the competitive skating in each instance.
4. Warm-ups must immediately precede the competitive skating of those in

that warm-up group. In case of an interruption in the Segment due to unforeseen circumstances of more than ten (10) minutes, the Competitors concerned will be permitted a second warm-up period of the duration mentioned at paragraph 2, depending on the Segment.

Rule 515

Allowance of a delayed start or restart

1. If the tempo or quality of the music is deficient, the Competitor/s may restart the program from its beginning, provided the Referee is informed within 30 seconds after the start of the program.
2. If an interruption or stop in the music or any other adverse condition unrelated to the Competitor/s or his/their equipment, such as lighting, ice-condition etc. occurs, the Competitor/s must stop skating at the acoustic signal of the Referee. The Competitor/s shall continue from the point of interruption immediately after the problem has been solved. If, however, the interruption lasts longer than ten minutes, there shall be a second warm-up period according to Rule 514, paragraph 2.
3. If a Competitor gets injured during the performance or another adverse condition related to him or his equipment (such as health problems or unexpected damage to his/their clothing or equipment) impedes his/their skating, the Competitor/s must stop skating. If he/they don't stop, they will be ordered to do so by an acoustic signal of the Referee.
 - a) If the adverse conditions can be remedied without delay and the Competitor/s resumes skating his/their program without reporting to the Referee, the Referee will apply a deduction for interruption as per Rule 353, paragraph 1.n) depending on the duration of the interruption. This time period commences immediately after the Competitor/s stops performing the program or is ordered to do so by the Referee, whichever is earlier. During this time period, the Competitor's music will continue playing. If the Competitor/s does not resume skating his/their program within forty (40) seconds, he/they shall be considered withdrawn;
 - b) If the adverse conditions cannot be remedied without delay and the Competitor/s reports to the Referee within forty (40) seconds, the Referee will allow an additional up to three (3) minutes period for the Competitor/s to resume skating. Then the Referee commands to stop the music. The additional time period commences at the moment the Competitor/s reports to the Referee. The Referee will apply a deduction as per Rule 353, paragraph 1.n) for the whole interruption. If the Competitor/s does not report to the Referee within forty (40) seconds or does not resume skating his/their program within the

additional three (3) minutes period, he/they shall be considered withdrawn.

The Referee shall first decide and indicate to the Technical Controller where the point of interruption is. If the Technical Panel decides that the interruption occurred at the entrance to or during an element, the Technical Panel shall call the element according to the usual principles of calling, and the Technical Controller shall inform the Referee of those decisions. The point from where the Competitor/s has to continue the program shall be decided and communicated to the Competitor/s, the Judges and the Technical Panel by the Referee; it is either the point of interruption, or, if the Technical Panel has decided that the interruption occurred at the entrance to or during an element, the point immediately following this element.

4. If a Competitor with the first starting number in the group gets injured or any other adverse condition related to him or his equipment impeding his/their skating occurs during the warm-up period and time before the start of the program is not sufficient to remedy the adverse condition, the Referee shall allow the Competitor up to three (3) additional minutes before he/they is/are called to the start. No deduction as per paragraph 3 above applies.
5. If any Competitor/s between entering the ice and being called to the start is/are injured or any other adverse condition related to him/them or his/their equipment impeding his/their skating occurs and time before the start of the program is not sufficient to remedy the adverse condition, the Referee shall allow the Competitor/s up to three (3) additional minutes before he/they is called to the start. The Referee will apply a deduction as per paragraph 3.b) above.
6. With respect to adverse conditions related to a Competitor or his equipment as per paragraph 3.b) above, only one restart per program is allowed. In case of a second stop of the performance due to an adverse condition related to the Competitor/s or his/their equipment as per paragraph 3.b) above, the Competitor/s concerned shall be considered withdrawn.
7. If Competitor/s do not complete the program, no marks are awarded and the Competitor/s is/are withdrawn.

B. ISU Championships – Special Technical Rules

Rule 520 Draws for Competitors

1. At all ISU Championships, the draw for the Short Program/Short Dance will be held according to the latest World Standings in the following way. World Standings are established as per the procedure published in an ISU Communication:
 - a) the Competitors will be divided into two approximately equal parts with the higher ranked Competitors being drawn in the second part (thereafter called the part “skating later”) and the lower ranked Competitors and Competitors with no ranking being drawn in the first part (thereafter called the part “skating earlier”); if the number of Competitors cannot be divided equally by two, the part “skating later” will include one Skater/Pair/Couple more than the part “skating earlier”. In case of ties in the World Standings on the border of the two parts, all those tied Competitors will be included in the part “skating later”;
 - b) if the number of Competitors with no ranking is bigger than the number of places in the part “skating earlier”, some of these Competitors (decided by draw) will be in the part “skating later”. For this draw all Competitors with no ranking will participate to draw for as many positions as necessary for the part “skating later”;
 - c) the number of Competitors of the last and the next to last starting order groups will be determined according to Table I of the Technical Rules using the total number of Competitors;
 - d) there will be a free draw among Competitors with the highest ranking to skate in the last starting order group of the “skating later” part and a free draw among Competitors with the next highest ranking to skate in the next to last starting order group of the “skating later” part.
 - (i) In case of ties in the World Standings on the border between the last and next to last starting order groups, all those tied Competitors will be included in the last starting order group and the next to last starting order group will be smaller by the number of Competitors so added to the last starting order group. In the event the last starting order group exceeds the maximum size permitted by two or more Single Skaters, or by one or more Pair/Ice Dance Couple, the last starting order group will be divided into two subgroups and there will be a free draw in each of the subgroups;

- (ii) In case of ties in the World Standings on the border between the next to last starting order group and the rest of the Competitors, all those tied Competitors will be included in the next to last starting order group. In the event the next to last starting order group exceeds the maximum size permitted by two or more Single Skaters, or by one or more Pair/Ice Dance Couple, the next to last starting order group will be divided into two subgroups and there will be a free draw in each of the subgroups;
- e) there will be a free draw among all other Competitors of the “skating later” part;
 - f) there will be one more free draw among all Competitors of the “skating earlier” part. For this draw all these Competitors will be divided into two parts: Competitors with and without ranking, so that Competitors with ranking will draw for the later skating starting numbers;
 - g) starting numbers are drawn according to the World Standings with the highest ranked Competitor being drawn first, the next ranked Competitor – second etc. In cases of ties in the World Standings there will be a separate draw between tied Competitors to decide the order of the main draw.
 - h) Warm up groups will be determined according to Table II of the Technical Rules, using the total number of Competitors. In case of adjustments to the last and next to last starting order groups as per paragraph d) (i) and (ii) above, warm up groups will be adjusted similarly to provide a separate warm up to each of those starting order groups and possible subgroups.
2. Based on the result of the Short Program/Short Dance, the Competitors placed 1-24 in Single Skating 1-16 in Pair Skating and 1-20 in Ice Dance only shall qualify for the final Free Skating/Free Dance.
 3. The starting order for the Free Skating/Free Dance will be according to Rule 513, paragraph 2.
 4. If a tie in the Short Program/Short Dance occurs for the 24th place in Single Skating or for the 16th place in Pair Skating or for the 20th place in Ice Dance, all the tied Competitors will qualify for the Free Skating/Free Dance for which they will be drawn in the same (first) group. If necessary, Rule 514, paragraph 4 shall apply.

Those alternate Judges must be called on site if needed with a seven (7) days benchmark of notice. If, however, on site not enough Judges as drawn are available to serve in the designated panel and the alternate Judge(s) cannot be anymore called, a draw must be made amongst all present Judges of Members not represented in the panel, willing, qualified and available to serve, who are already drawn in another panel of the Championships.

7. Four Continents Figure Skating Championships

- a) ISU Members of the Four Continents will have first priority in the draws for the composition of the panel of Judges for the Four Continents Figure Skating Championships.
- b) A random draw will be made to determine the order of disciplines in which the panels will be drawn, however the Pair panel has to be drawn last.

Nine (9) ISU Members are drawn amongst all the ISU Members of the Four Continents, who have entered a Judge by number for this particular discipline and who have participated with a Skater/Pair/Couple in the same discipline of the Four Continents Figure Skating Championships of the immediate preceding year, provided that this Skater/Pair/Couple had finished at least one segment (see also paragraph 4. a)..

III. TECHNICAL RULES

SINGLE & PAIR SKATING

A. Single and Pair Skating Elements

Rules 600 – 609 (reserved)

Rule 610

Requirements to elements of Single and Pair Skating and Illegal Elements/Movements

Jump elements

A "jump element" is defined as an individual jump, a jump combination or a jump sequence.

Jump Combinations

In a jump combination the landing foot of a jump is the take off foot of the next jump. One full revolution on the ice between the jumps (free foot can touch the ice, but no weight transfer) keeps the element in the frame of the definition of a jump combination.

If the jumps are connected with a non-listed jump, the element is called a jump sequence. However half-loop when used in combinations/sequences is considered as a listed jump with the Value of a Loop.

If the first jump of a two-jump-combination fails to be successful and turns out as a "non-listed jump", the unit will still be considered as a jump combination.

Jump Sequences

A jump sequence may consist of any number of jumps of any number of revolutions that may be linked by non-listed jumps and/or hops immediately following each other while maintaining the jump rhythm (knee); there can be no turns/steps, crossovers or stroking during the sequence (Turns are three turns, twizzles, brackets, loops, counters, rockers. Steps are toe steps, chasses, mohawks, choctaws, curves with change of edge, cross-rolls).

A jump sequence, consisting of only one listed jump together with other non-listed jumps is not considered a jump sequence, but will count as a solo jump.

Spins

Positions: There are 3 basic positions: camel (free leg backwards with the knee higher than the hip level, however Layback, Biellmann and similar variations are still considered as upright spins), sit (the upper part of the skating leg at least

parallel to the ice), upright (any position with skating leg extended or slightly bent which is not a camel position).

Layback Spin is an upright spin in which head and shoulders are leaning backward with the back arched. The position of the free leg is optional.

Sideways Leaning Spin is an upright spin in which head and shoulders are leaning sideways and the upper body is arched. The position of the free leg is optional.

A Spin that has no basic position with 2 revolutions will receive no Level and no value, however a spin with less than three rotations is considered as a skating movement and not a spin.

The minimum number of revolutions required in a position is two (2) without interruption. In case this requirement is not fulfilled, the position is not counted.

In any spin change of edge can be counted only if done in a basic position.

Variations of the position of the head, arms or free leg, as well as fluctuations of speed are permitted.

The change of foot in any spin must be preceded and followed by a spin position with at least three (3) revolutions.

If the Skater(s) falls when entering a spin, a spin or a spinning movement is allowed immediately after this fall (for filling time purpose) with this spin/movement not being counted as an element.

If the spinning centers (before and after the change of foot) are too far apart and the criteria of “two spins” is fulfilled (there is a curve of exit after the first part and the curve of entry into the second part), only the part before the change of foot will be called and considered for Levels features.

Spin combinations: Must include a minimum of two different basic positions with 2 revolutions in each of these positions anywhere within the spin; the number of revolutions in positions that are non-basic is counted in the total number of revolutions. Changing to a non-basic position is not considered as a change of position. A change of foot may be executed in the form of a step over or a jump. The change of foot and the change of position may be made either at the same time or separately.

Spin in one position and (in Singles) Flying spin (which means a spin with a flying entrance and no change of foot and position): positions that are not basic are allowed, counted in the total number of revolutions required by the Rules, but are not valid for Level features.

In spins in one position and flying spins the concluding upright position at the end of the spin (final wind-up) is not considered to be another position independent of the number of revolutions, as long as in such a final wind-up no additional feature is executed (change of edge, variation of position etc).

When the spin is commenced with a jump, no previous rotation on the ice before the take-off is permitted and a step over must be considered by the Judges in the

Grade of Execution.

Step Sequences

All step sequences should be executed according to the character of the music. Short stops in accordance with the music are permitted. Step Sequences must fully utilize the ice surface.

Turns and steps must be balanced in their distribution throughout the sequence.

Illegal/Elements Movements are:

- somersault type jumps;
- lifts with wrong holds;
- lifts with more than 3 ½ revolutions of the Man;
- spinning movements in which the Man swings the Lady around in the air while holding her hand or foot;
- twist-like or rotational movements during which the Lady is turned over with her skating foot leaving the ice;
- rotational movements with the grip of one of the partners on the leg, arm and neck of the other partner;
- jumps of one of the partners towards the other partner;
- lying and prolonged and/or stationary kneeling on both knees on the ice at any moment.

4. **Remarks**

Jumps

b) For Senior Men any triple or quadruple jump is permitted, when a quadruple jump is executed in c), a different quadruple jump can be included as a solo jump. For Senior and Junior Men and for Senior Ladies, when the triple Axel Paulsen is executed in a), it cannot be repeated again as a solo jump or in the jump combination. For Senior Ladies any triple jump is permitted. For Junior Ladies and Men only the prescribed double or triple jump is permitted. A single spread eagle, spiral or Free Skating movement cannot be considered as meeting the requirements of connecting steps and/or other comparable Free Skating movements and must be considered by the Judges in the Grade of Execution (GOE).

Jump combinations

c) For Senior Men the jump combination may consist of the same jump or another double, triple or quadruple jump. For Senior Men when a quadruple jump is executed in b), a different quadruple jump can be included in the jump combination. For Senior Ladies, Junior Men and Ladies the jump combination may consist of the same jump or another double or triple jump. However, for all categories the jumps included must be different than the solo jump.

If the same jump is executed as a solo jump and as a part of the jump combination, the last performed of these jump elements will be not counted, but will occupy a jumping box (if this element is a jump combination, the whole jump combination will not be counted).

Spins

Spin in one position and spin combination: if there is no spin position before and/or after the change of foot with at least three (3) revolutions, the spin is not according to the requirements and no value will be given.

Except flying spins, spins cannot be commenced with a jump.

d) Flying spin:

Senior: Any type of flying spin is permitted with landing position different than in the Spin in one position. A step over must be considered by the Judges in the Grade of Execution. A minimum of eight (8) revolutions in the landing position

which may be different from the flying position. No previous rotation on the ice before the take-off is permitted.

Junior: There must be a minimum of eight (8) revolutions in the landing position which must be the same as the flying position. No previous rotation on the ice before the take-off is permitted.

When the flying sit spin is required in the short program, only the prescribed "Flying" position or its variation is permitted, this position must be attained in the air, and changing foot on landing is permitted.

For both Senior and Junior, the required eight (8) revolutions can be executed in any variation of the landing position.

e) Men - spin with only one change of foot:

Senior: The Competitor must choose the camel position or the sit position to be executed, but this position must be different from the landing position of the Flying spin. The spin must consist of only one change of foot, which may be executed in the form of a step over or a jump with not less than six (6) revolutions on each foot.

Junior: Only the prescribed sit or camel position is permitted to be executed. The spin must consist of only one change of foot, which may be executed in the form of a step over or a jump with not less than six (6) revolutions on each foot.

If in Senior Men the landing position of the Flying spin is the same that in the Spin in one position, the last performed of these two spins will not be counted, but will occupy a spin box.

e) Ladies - layback or sideways leaning spin:

Any position is permitted, as long as the basic layback or sideways leaning position is maintained for eight (8) revolutions without rising to an upright position. After the required 8 revolutions it is possible to execute the Biellmann position.

f) Spin combination:

The spin combination must include a minimum of two different basic positions with 2 revolutions in each of these positions (if there are less than three basic positions with 2 revolutions in every position, this will be reflected in the Value of the spin) and only one change of foot with not less than six (6) revolutions on each foot. The change of foot may be executed in the form of a step over or a jump. The change of foot and the change of position may be made either at the same time or separately.

Step Sequences

Step sequences may include any unlisted jumps.

Spirals

Though a spiral sequence is no longer an element of the Ladies Short Program, the execution of Spirals will be rewarded in “Transitions”.

Rule 612 Free Skating Singles

1. Free Skating consists of a well balanced program of Free Skating elements, such as jumps, spins, steps and other linking movements executed with a minimum of two footed skating in harmony with music of the Competitor's choice, vocal music with lyrics is permitted.

Senior Well Balanced Program

A well balanced Free Skating program for **Men** must contain:

- maximum of 8 jump elements (one of which must be an Axel type jump);
- maximum of 3 spins, one of which must be a spin combination, one a flying spin or a spin with a flying entrance and one a spin with only one position;
- maximum of 1 step sequence;
- maximum of 1 choreographic sequence.

A well balanced Free Skating program for **Ladies** must contain:

- maximum of 7 jump elements (one of which must be an Axel type jump);
- maximum of 3 spins, one of which must be a spin combination, one a flying spin or a spin with a flying entrance and one a spin with only one position;
- maximum of 1 step sequence;
- maximum of 1 choreographic sequence.

Junior Well Balanced Program

A well balanced Free Skating program for **Men** must contain:

- maximum of 8 jump elements (one of which must be an Axel type jump);
- maximum of 3 spins, one of which must be a spin combination, one a flying spin or a spin with a flying entrance and one a spin with only one position;
- maximum of 1 step sequence.

A well balanced Free Skating program for **Ladies** must contain:

- maximum of 7 jump elements (one of which must be an Axel type jump);

- maximum of 3 spins, one of which must be a spin combination, one a flying spin or a spin with a flying entrance and one a spin with only one position;
- maximum of 1 step sequence.

2. General

The Competitor has complete freedom to select the Free Skating elements, the sum of which will comprise the program.

All elements are to be linked together by connecting steps of a different nature and by other comparable Free Skating movements while fully utilizing the entire ice surface (forward and backward crossovers are not considered to be connecting steps).

Any additional element or elements exceeding the prescribed numbers will not be counted in the results of a participant. Only the first attempt (or allowed number of attempts) of an element will be taken into account.

Remarks

For all singles Free Programs the following will apply:

Individual Jumps

Individual jumps can contain any number of revolutions.

Jump Combinations and Jump Sequences

A jump combination may consist of the same or another single, double, triple or quadruple jump. There may be up to three jump combinations or jump sequences in the Free Program. One jump combination could consist of up to three (3) jumps, the other two up to two (2) jumps.

Repetitions:

Any double jump (including double Axel) cannot be included more than twice in total in a Single's Free Program (as a Solo Jump or a part of Combination / Sequence). Of all the triple and quadruple jumps only two (2) can be executed twice. If at least one of these executions is in a jump combination or a jump sequence, both executions are evaluated in a regular way. If both executions are as solo jumps, the second of these solo jumps will receive 70% of its original Base Value. Triple and quadruple jumps with the same name will be considered as two different jumps. No triple or quadruple jump can be attempted more than twice. If a third repeated jump is executed in a combination or sequence, the entire combination or sequence will be treated as an additional element and therefore not considered (but this element will occupy a jump element box if one is empty).

Spins

All Spins must be of a different character. Any Spin with the same character

(abbreviation) as the one executed before will be deleted (but will occupy a spinning box).

The spins must have a required minimum number of revolutions: six (6) for the flying spin and the spin with only one position and ten (10) for the spin combination, the lack of which must be reflected by Judges in their marking. These minimum number of required revolutions must be counted from the entry of the spin until its exit (except final wind-up in Spins in one position and Flying spins). In the spin combination and spin in one position the change of foot is optional. The number of different positions in the spin combination is free.

Steps

The Competitors have complete freedom in selecting the kind of step sequence they intend to execute. Jumps can also be included in the step sequence. However the step sequence must fully utilize the ice surface. Step sequences too short and barely visible cannot be considered as meeting the requirements of a step sequence.

Choreographic Sequences

A Choreographic Sequence consists of any kind of movements like steps, turns, spirals, arabesques, spread eagles, Ina Bauers, hydroblading, any jumps with maximum of 2 revolutions, spins, etc. Listed elements included in the Choreographic Sequence will not be called and will not occupy a box. The pattern is not restricted, but the sequence must be clearly visible.

The Technical Panel identifies the Choreographic Sequence which commences with the first skating movement and is concluded with the preparation to the next element (if the Choreographic Sequence is not the last element of the program). It can be performed before or after the Step Sequence.

This element has a fixed base value and will be evaluated by the judges in GOE only.

C. Pair Skating

Rule 619

Requirements to elements of Pair Skating

General

Pair Skating is the skating of two persons in unison who perform their movements in such harmony with each other as to give the impression of genuine Pair Skating as compared with independent Single Skating; attention should be paid to the selection of an appropriate partner.

All elements are to be linked together by connecting steps of a different nature

and by other comparable Free Skating movements, together with a variety of positions and holds, while fully utilizing the entire ice surface.

- a) Both partners need not always perform the same movements; they may separate from time to time, but they must give an impression of unison and harmony of composition of program and of execution of the skating. Movements performed entirely on two feet must be kept to a minimum.
- b) For the purpose of these Rules, a lift means a complete lift including full extension of the lifting arm/s, if required for the type of lift concerned. Small lifts, which may be either ascending and descending or rotational in character, in which the Man does not raise his hands higher than the shoulder level, as well as movements which may include the holding of the Lady by the legs are also permitted.
- c) Spinning movements in which the Man swings the Lady around in the air while holding her hand or foot, are illegal. Also illegal are the jumps of one of the partners towards the other partner, rotational movements with the grip of one of the partners on the leg, arm and neck of the other partner. Nevertheless, the so called death spiral in which the Lady circles around the Man, is permitted. One skate of the Lady must remain on the ice throughout the death spiral. Twist-like or rotational movements during which the Lady is turned over one or more times with her skating foot leaving the ice are not permitted. Multiple execution throughout a program of movements, where neither skate is on the ice must be penalized.
- d) Harmonious steps and connecting movements, in time to the music, should be maintained throughout the program.

Lifts

Pair lifts are classified as follows:

- | | | |
|-------------|---|--|
| Group One | - | Armpit Hold position |
| Group Two | - | Waist Hold position |
| Group Three | - | Hand to Hip or upper part of the leg (above the knee) position |
| Group Four | - | Hand to Hand position (Press Lift type) |
| Group Five | - | Hand to Hand position (Lasso Lift type) |

The Lift's Group is determined by the hold at the moment the Lady passes the Man's shoulder. In Groups 3–5 full extension of the lifting arm(s) is mandatory.

A minimum of one (1) and maximum of three and a half (3 ½) revolutions of the Man.

Partners may give each other assistance only through hand-to-hand, hand-to-

arm, hand-to-body and hand to upper part of the leg (above the knee) grips. A change of hold means going from one of these grips to another or from one hand to another in a one hand hold. Changes of hold during the lift are permitted. If, however, the Man changes hold for less than one (1) revolution, it is not considered as a “change of hold”. One hand holds and/or one hand landings count as Level features only when the Man uses one hand and the Lady uses either one hand or no hands.

Lady’s positions are classified as follows: Upright (Lady’s upper body vertical), Star (Lady’s position sideways with upper body parallel to the ice) and Platter (Lady’s position flat, facing up or down with upper body parallel to the ice). A change of position means going from one of these positions to another (one full revolution in each position).

If a change of hold and a change of Lady’s position are executed at the same time, only one Level feature will be awarded.

The conclusion of the lift is when the Man’s arm(s) begin to bend after full extension and consequently the Lady begins to descend. Level features (except related to take-off or landing) are counted from the moment the Man’s arms are fully extended until the conclusion of the Lift. Three and a half (3 ½) allowed revolutions of the Man are counted from the moment the Lady leaves the ice until the conclusion of the Lift.

Twist lifts

The Lady must be caught in the air at the waist by the Man prior to landing and be assisted to a smooth landing on the ice on a backward outside edge on one foot. In the twist lift, a split position by the Lady, prior to rotating, is not mandatory.

Throw jumps

Throw jumps are partner assisted jumps in which the Lady is thrown into the air by the Man on the take-off and lands without assistance from her partner on a backward outside edge.

Solo jumps, jump combinations and jump sequences

In case of unequal number of revolutions of the partners in a jump performed as a solo jump or part of a combination or a sequence, this jump will be called as a jump with lesser amount of revolutions executed by the partners.

Solo spin combinations

Solo spin combinations may be commenced with jumps.

Pair spin combinations

The pair spin combination must include at least one change of foot and position

of both partners.

If there is no change of foot or no change of position by both partners, the element will have no value.

Death Spirals

In the final position while the Lady is performing the actual death spiral, both the Man and the Lady must execute a minimum of one (1) revolution with the knees of the Man clearly bent and in full pivot position. For a possible higher Level, the Man should stay in a low pivot position (this is when the lower part of his buttocks is not higher than the upper part of the knee of the pivot foot). The Lady simultaneously must skate on a clean edge with her body and head close to the ice surface, however she must not touch the ice with her head or assist herself with the free hand or any part of the body. The Lady's body weight is supported by the force of the spiraling edge and the hold of the Man. The Man must be in a centered position with a fully extended arm.

Any kind of position is counted as a feature if Skaters' hold lasts for at least one (1) revolution.

Step sequences

Should be executed together or close together. Step sequence must fully utilize the ice surface. Credit will be given to a pair which changes places and holds or uses difficult skating moves together during a step sequence. The workload between both partners must be even to be taken into account for a possible higher Level.

Rule 620

Short Programs Pairs

1. a) The Short Program for pairs (Senior and Junior) consists of seven (7) required elements. The sequence of the elements is optional;

- c) Additional elements or repetitions, even of elements which have failed, are not marked and consequently do not block a "box" (spot) of another type of elements. If, however, such an unprescribed or additional element (performed) substitutes a required element (not performed), the respective box will be blocked and this performed element will be considered as not according to the requirements (no value);

4. Remarks

Lifts

- a) Only the prescribed overhead lift take-off is permitted.
Hand-to-hand loop lift take off:
Partners skate backward one behind the other, backward outside, in hand-to-hand position.

Toe Lasso lift take off:

Partners skate in Lasso position with the Lady skating backward and the Man forward. The Lady is lifted in the air from a backward toe take off.

Toe loop hip lift take off:

Partners skate backward with a hip grip. The Lady picks as in a toe loop jump. The Man turns together with the Lady.

Twist lifts

1. In the Short Program a twist lift take off is limited to either a Lutz or a Flip take off by the Lady. The number of revolutions of the Lady rotating freely in the air is two (2) or three (3) for Seniors and Juniors.

Throw jumps

- c) For Seniors, any double or triple throw jump is permitted. For Juniors only the prescribed throw jump is permitted.

Solo jumps

- d) For Seniors, any double or triple jump is permitted. For Juniors only the prescribed jump is permitted.

Spins

Solo spin combination

- e) The solo spin combination in the Short Program must have at least 2 revolutions in two different basic positions. If there are less than three basic positions by each partner with 2 revolutions in every position, this will be reflected in the Value of the Spin. Minimum of five (5) revolutions on each foot. The change of foot may be executed in the form of a step over or a jump and the change of foot and the change of position may be made either at the same time or separately.

Pair spin combination

- e) The pair spin combination must consist of only one change of foot and at least one change of position (sit, camel, upright or any variation thereof) with not less than eight (8) revolutions in total.
The spin combination must include at least two basic positions or their variations by both partners. The change of foot and the change of positions may be made either at the same time or separately, but the change of foot must be made at the same time by both partners. The rotation must be continuous and no stop is permitted. The spin combination must not be commenced with a jump.

Death Spirals

- f) Only the prescribed death spiral is permitted.

Death Spiral backward outside:

Both partners are skating on a backward outside edge. The Man performs a pivot and holds the hand of the Lady with the same arm as his skating foot fully extended. The Lady is leaning backwards to the ice and her arm is fully extended as she circles around the Man in this position. Any variation of the Man's position, skating direction or edge is allowed as long as he keeps the pivot position as described and the Lady circles around him on an outside edge.

Death Spiral forward inside:

The Man is skating on a backward outside edge, and the Lady is skating on a forward inside edge. The Man performs a pivot and holds the hand of the Lady with the same arm fully extended as his skating foot. The Lady is leaning sideways to the ice and her arm is also fully extended as she circles around the Man in this position. Any variation of the Man's position, skating direction or edge is allowed as long as he keeps the pivot position as described and the Lady circles around him on an inside edge.

Death Spiral backward inside:

The same as for death spiral backward outside, but the Lady circles around the Man on a firm backward inside edge leaning to the ice.

Death Spiral forward outside:

The same as for the death spiral forward inside, except that the Lady circles around the Man on a firm forward outside edge.

Step sequences

- g) Step sequence should be executed together or close together and may include any unlisted jumps. Short stops in accordance with the music are permitted.

Spiral Sequences

Though a spiral sequence is no longer an element of the Pairs Short Program, the execution of Spirals will be rewarded in “Transitions”.

Rule 621 Free Skating Pairs

1. Free Skating for pairs consists of a well balanced program composed and skated to music of the pair’s own choice for a specified period of time. Vocal music with lyrics is permitted. A good program contains moves of Single Skating executed simultaneously either symmetrically (mirror skating) or in parallel (shadow skating) and especially typical Pair Skating moves such as pair spins, spirals, lifts, partner assisted jumps and the like, linked harmoniously by steps and other movements.

2. **A Senior Well Balanced Program** must contain:

- maximum of 3 lifts, not all from Group 5, with full extension of the lifting arm/s;
- maximum of 1 twist lift;
- maximum of 2 different throw jumps;
- maximum of 1 solo jump;
- maximum of 1 jump combination or sequence;
- maximum of 1 solo spin combination;
- maximum of 1 pair spin combination;
- maximum of 1 death spiral different from the death spiral of the Short Program;
- maximum of 1 choreographic sequence.

3. **A Junior Well Balanced Program** must contain:

- maximum of 2 lifts, not all from Group 5 with full extension of the lifting arm/s;
- maximum of 1 twist lift;
- maximum of 2 different throw jumps;

- maximum of 1 solo jump;
- maximum of 1 jump combination or sequence;
- maximum of 1 solo spin combination;
- maximum of 1 pair spin combination;
- maximum of 1 death spiral;
- maximum of 1 choreographic sequence.

Any additional element or elements exceeding the prescribed numbers will not be counted in the result of a pair. Only the first attempt (or allowed number of attempts) of an element will be taken into account.

4. Remarks

For all pair programs, the following will apply:

Lifts

For Seniors if two (2) of Group 5 Lifts are executed, the take-offs have to be of different nature (abbreviation). If the take-off is not different, the second executed Group 5 lift will not be marked, but will block a Lift box.

Carry Lifts

- a) One of the allowed Lifts with at least one continuous revolution of the Man may include a carry. Only one such lift can be executed. The next performed such a lift will have no value (but will block a Lift box if there is still any left);
- b) Lifts that are just "Carries" consist of the simple carrying of a partner without rotation, only half a revolution of the Man is allowed on the take-off and/or exit. All holds in "Carry" lifts are unrestricted. The carrying of one partner by the other on the back, shoulders or knees is allowed in these lifts. Carry lifts shall not be counted in the number of overhead lifts. These lifts will be considered in the component "Transition". They do not have a value and are not limited in number.

Twist lift

In Free Skating the number of revolutions in the twist lift is not limited. A Lutz, Flip, Toe loop or Axel take-off by the Lady is accepted.

Solo jumps, jump combinations and jump sequences

The jump combination may consist of two (2) or three (3) jumps.

All jumps executed with more than 2 revolutions (Double Axel and all triple and quadruple jumps) must be of different nature (different name), however the jump combination or sequence can include two same such jumps.

Spins

The spins must have a required minimum number of revolutions: ten (10) for solo spin combination and eight (8) for the pair spin combination, the lack of

which must be reflected by Judges in their marking, however a spin with less than three (3) rotations is considered as a skating movement and not a spin. These minimum number of required revolutions must be counted from the entry of the spin until its exit.

In the **pair spin combination** there must be at least one change of foot of both partners, not necessarily executed by both partners at the same time. The pair spin combination must include at least two (2) different basic positions by both partners.

In the **solo spin combination** the change of foot is optional.

Death Spiral

Variations of arm holds and pivot positions (backward or forward) are possible. For Seniors the death spiral of Free Skating must be of a different type than the death spiral of the Short Program.

Choreographic Sequences

A Choreographic Sequence consists of any kind of movements like steps, turns (except twizzles), spirals, arabesques, spread eagles, Ina Bauers, hydroblading, any jumps with maximum of 2 revolutions, spins, small lifts etc. Listed elements included in the Choreographic Sequence will not be called and will not occupy a box. The pattern is not restricted, but the sequence must be clearly visible.

The Technical Panel identifies the Choreographic Sequence which commences with the first skating movement and is concluded with the preparation to the next element (if the Choreographic Sequence is not the last element of the program).

This element has a fixed base value and will be evaluated by the judges in GOE only.

III. TECHNICAL RULES

ICE DANCE

A. Ice Dance definitions

Rule 701 **Axis**

1. Long Axis – A straight line that divides the ice surface into two halves lengthwise (midline).
2. Short Axis – A straight line that divides the ice surface into two halves crosswise.
3. Continuous Axis – An imaginary line running around the ice surface that serves as the basis for the dance pattern. Usually, in Pattern Dances and Short Dance, the continuous axis consists of two lines running parallel to the long axis of the ice surface, approximately halfway between the long axis and the sides. These lines are joined at each end of the ice surface by a semi-circle. These semi-circles are flattened in some dances so that they run parallel to the ends of the ice surface. In circular dances, such as the Kilian, the continuous axis approximates a circle. The continuous axis of the Paso Doble is an oval.
4. Transverse Axis – An imaginary line intersecting the Continuous Axis of a dance at right angles.

Rule 702 **Patterns**

The pattern of any dance is the design of the dance on the ice. The diagram of a Pattern Dance includes all the information needed to execute one complete pattern (sequence) of the dance.

1. Set Pattern Dance – A Pattern Dance for which the location, direction and curvature of all edges to be skated are designated in the diagram. This diagram must be followed as closely as possible.
2. Optional Pattern Dance – A Pattern Dance for which the pattern may be altered by a Couple provided that the original step sequences, positions and timing are maintained. Each repetition of the altered pattern must be executed in the same manner and the restart must be commenced from the same place.

3. Lobe – Any sequence of steps on one side of the Continuous Axis that is approximately semi-circular in shape.

Rule 703 **Series of steps**

1. *Introductory Steps* – All Pattern Dances (does not apply to Pattern Dance Elements) may be started with optional introductory steps.
2. *Start of Pattern Dance* – The first step of the Pattern Dance after the Introductory Steps.
3. *Sequence* – The set order of the prescribed steps/turns that compose one pattern (sequence) of a Pattern Dance.
4. *Step Sequence* – A series of prescribed or un-prescribed steps, turns and movements in a Short Dance or a Free Dance. There are the following Types of Step Sequences which may be skated either in hold or not-touching.
 - *Step Sequences in Hold* must be skated in any Dance Holds or variation thereof (unless otherwise specified by the Ice Dance Technical Committee). Any separation to change a hold must not exceed one measure of music;
 - *Not Touching Step Sequence* must incorporate mirror and/or matching footwork. Both partners may cross each other's tracing(s) and may switch from matching footwork to mirror and vice versa, unless otherwise specified by the Ice Dance Technical Committee. The partners should remain as close together as possible, but they must not touch. The distance between the partners should generally not be more than two (2) arm length apart, except for short distances when the partners are performing edges and turns in opposite directions.

Types of Step Sequences are divided into the three (3) following Groups A, B and C:

Group A: Straight Line Step Sequences

- a) *Midline* – skated along the full length of the ice surface on the Long Axis;
- b) *Diagonal* – skated as fully corner to corner as possible.

Group B: Curved Step Sequence

- c) *Circular* (may be skated in anticlockwise or clockwise direction) – utilizing the full width of the ice surface on the Short Axis;
- d) *Serpentine* – commences in either direction (clockwise or anticlockwise) at the Long Axis at one end of the rink and progresses in three bold curves or in two bold curves (S-Shaped)

and ends at the Long Axis of the opposite end of the rink, the pattern utilizing the full width of the ice surface.

Group C: Partial Step Sequences – performed on the ice surface anywhere or as prescribed by the Ice Dance Technical Committee.

5. *Section* – A part of a Sequence of a Pattern Dance.
6. *Pattern Dance Element* – A series of prescribed steps, turns and movements in a Short Dance, consisting of:
 - a) a Sequence of a Pattern Dance listed in Rule 707 or
 - b) a Section of a Pattern Dance listed in Rule 707 or
 - c) a combination of steps/turns from Pattern Dances listed in Rule 707.

Rule 704 Steps, Turns and Movements

1. *Step* – The visible tracing on the ice that is executed on one foot. It may consist of an edge, change of edge, a turn on one foot such as a Three-Turn or Counter or a flat (which usually is not acceptable).
 - a) *Edge* – The visible tracing of a skate on one foot that is on one curve;
 - b) *Change of Edge* – The visible tracing of a skate on one foot that changes from one curve and edge to a different curve and edge;
 - c) *Flat* – The visible double tracing of a skate on one foot that is straight.
2. *Open Stroke* – A step started close beside the skating foot without crossing in front or behind. It should be noted that on all forward edges the free leg is held behind before coming to the skating foot for the next step. On all backward edges the free leg is held forward before returning to the skating foot for the next step.
3. *Cross Stroke* – A step started with the feet crossed so that the impetus or power is gained from the outside edge of the foot that is becoming the free foot. (Note – the legs cross above the knees).
4. *Crossed Step In Front* – A step in which the free foot is placed on the ice on the outer edge side of the skating foot with the free leg tightly crossed in front of the skating leg (note – the legs cross below the knees).
5. *Crossed Step Behind* – A step in which the free foot is placed on the ice on the outer edge side of the skating foot with the free leg tightly crossed behind the skating leg (note – the legs cross below the knees).
6. *Chassé*
 - a) *Simple Chassé* – A series of two edges (usually outside, inside) in which on the second edge the free foot is placed on the ice beside the skating foot, but not ahead of or behind it, and the free foot is lifted with the blade parallel to the ice;

- b) *Crossed Chassé* is the same as Simple Chassé except that on the second step the free foot crosses the skating foot (crossing behind if the Skater is skating forward, and crossing in front if the Skater is skating backward);
 - c) *Slide Chassé* is the same as Simple Chassé except that on the second step the free foot slides off the ice in front of the skating foot when the Skater is skating forward and to the back if the Skater is skating backward (example: Man's Step 32 in the Starlight Waltz).
7. *Progressive (or Run or Crossover)* – A step or sequence of steps in which the free foot passes the skating foot before it is placed on the ice, thereby bringing the new free foot off the ice trailing the new skating foot.
 8. *Roll* – A short or long, forward or backward edge.
 - a) *Swing Roll* – A Roll held for several beats of music during which, when skating backward, the free leg lifts and then first swings forward, then backward past the skating foot, then back beside to skate the next step. When skating forward, the free leg first swings backward, then forward and then back beside to skate the next step. The swing of the leg gives the sense of a “rolling movement”;
 - b) *Cross Roll* – A Roll started with the action of the free foot approaching the skating foot from the side so as to strike the ice almost at right-angles to the skating foot, started forward with the feet crossed in front or backward with the feet crossed behind. The impetus is gained from the outside edge of the skating foot as it becomes the new skating foot. In this case, the change of lean to the curve in the opposite direction creates a “rolling movement”.
 9. *Slip Step* – A step skated in a straight line with the blades of both skates being held flat on the ice. The weight is over the skating leg that may be well bent or straight while the free foot slides forward on the ice to full extension.
 10. *Toe Step* – A step where the Skater steps from one toe to the other without jumping.
 11. *Turn*
 - a) *One Foot Turn* – A rotational movement on one foot in which the Skater moves from forward to backward or backward to forward.
 - i) *Three Turn* – A turn executed on one foot from an outside edge to an inside edge or an inside edge to an outside edge, with the exit curve continuing on the same lobe as the entry curve. The Skater turns in the direction of the curve;
 - ii) *American Waltz Type Three Turn (or Swing Three Turn)* – A Three Turn from an outside edge in which the free leg is extended and the toe and hip are well turned out and held over the tracing.

The instep of the free foot is drawn close to the heel of the skating foot as the turn is made. After the turn onto an inside edge, the free foot is extended back of the tracing before being brought back beside the skating foot in time for the next step;

- iii) *European Waltz Type Three Turn* – A Three Turn which begins as in ii). After the turn the back inside edge is held for one beat before the weight is transferred to the free foot as it becomes the skating foot;
- iv) *Ravensburger Waltz Type Three Turn* – An inside Three Turn that begins as in i) and ii) with the free leg extended over the tracing and left behind during the turn, and swings through after its completion in front of the tracing before being brought back beside the skating foot in time for the next step. (example: Man's Step 1 in the Ravensburger Waltz);
- v) *Touchdown Three Turn* – A Three Turn in which the weight is almost immediately transferred to the free foot as it becomes the skating foot for the next step. The turn is made from a forward outside three to the backward outside edge of the opposite foot without full weight transfer, then the Skater immediately steps forward onto the original foot (example: Steps 1 and 2 in the Austrian Waltz). Such a sequence may be skated with forward or backward, inside or outside Three Turns and may be skated alone or as a Couple side by side;
- vi) *Walk-Around Three Turns* – Three Turns turned by a Couple at the same time around a common axis. The partners skate these turns in Waltz Hold (example: Step 29 to 31 in the Austrian Waltz, Steps 39 and 40 in the Ravensburger Waltz) or offset in partial Tango Hold (Steps 1 to 5 in the Golden Waltz);
- vii) *Bracket* – A turn executed on one foot from an outside edge to an inside edge or an inside edge to an outside edge, with the exit curve continuing on the same lobe as the entry curve. The Skater turns in the direction opposite to the curve;
- viii) *Rocker* – A turn executed on one foot from an outside edge to an outside edge or an inside edge to an inside edge, with the exit curve on a different lobe from the entry curve. The Skater turns in the direction of the entry curve;
- ix) *Counter* – A turn executed on one foot from an outside edge to an outside edge or an inside edge to an inside edge, with the exit curve on a different lobe from the entry curve. The Skater turns in the direction opposite to the entry curve (i.e. in the direction of the exit curve);

- x) *Swing Rocker or Counter* – A type of Rocker or Counter in which the free foot swings smoothly past close to the skating foot before the turn and after the turn is either moved past the skating foot and held behind over the tracing or allowed to swing forward.
- b) *Two Foot Turn* – A rotational movement from one foot to the other foot in which the Skater moves forward to backward or backward to forward
- i) *Mohawk* – A turn from one foot to the other in which the entry and exit curves are continuous and of equal depth. The change of foot is from an outside edge to an outside edge or from an inside edge to an inside edge.
- *Open Mohawk* – A Mohawk in which the heel of the free foot is placed on the ice at the inner side of the skating foot, the angle between the two feet being optional. Following the weight transfer, the immediate position of the new free foot is behind the heel of the new skating foot (examples: the Man's Steps 8 and 9 and the Lady's Steps 12 and 13 in the Fourteenstep);
 - *Closed Mohawk* – A Mohawk in which the instep of the free foot is brought to the heel of the skating foot until the free foot is placed on the ice behind the heel of the skating foot. Following the weight transfer, the immediate position of the new free foot is in front of the new skating foot (examples: Steps 11 and 12 of the Rocker Foxtrot);
 - *Swing Mohawk* – An Open or Closed Mohawk in which the free leg swings forward closely past the skating leg, and then back to the skating foot to execute the turn (examples: Steps 20 and 21 in the Tango).
- ii) *Choctaw* – A turn from one foot to the other in which the curve of the exit edge is opposite to that of the entry edge. The change of foot is from outside edge to inside edge or inside edge to outside edge. Unless otherwise specified in the dance description, the free foot is placed on the ice close to the skating foot. The entry and exit edge are of equal depth.
- *Open Choctaw* – A Choctaw in which the free foot is placed on the ice at the inner side of the skating foot. Following the weight transfer the immediate position of the new free foot is behind the heel of the new skating foot;
 - *Closed Choctaw* – A Choctaw in which the instep of the free foot is brought to the heel of the skating foot until the free foot is placed on the ice behind the heel of the skating foot.

Following the weight transfer the immediate position of the new free foot is in front of the new skating foot (example: Steps 12 and 13 in the Blues);

- *Swing Choctaw* – An Open or Closed Choctaw in which the free leg swings forward closely past the skating leg and then back to the skating foot to execute the turn (example: Steps 5 and 6 [first part] of the Quickstep);
- *Crossed Open Choctaw* – A Choctaw in which the outside of the free foot is held in front of and at right angles to the skating foot. The hip is open after the turn. It may be wide-stepped (example: Steps 11 and 12 in the Rhumba).

- c) *Twizzle* – A traveling turn on one foot with one or more rotations which is quickly rotated with a continuous (uninterrupted) action. The weight remains on the skating foot with the free foot in any position during the turn then placed beside the skating foot to skate the next step. A series of checked Three Turns is not acceptable as this does not constitute a continuous action. If the traveling action stops during the execution, the Twizzle, it becomes a Solo Spin (Pirouette).

The four (4) different types of *entry edges* for Twizzles are as follows:

- Forward Inside;
- Forward Outside;
- Backward Inside;
- Backward Outside.

- d) *Twizzle Like Motion* – While the body performs one full continuous rotation, the skating foot technically executes less than a full turn followed by a step forward.

12. *Set of Twizzles*

- a) *Set of Synchronized Twizzles* – A series of two Twizzles for each partner with up to 3 steps between Twizzles;
- b) *Set of Sequential Twizzles* – A series of two Twizzles for each partner with up to 1 step between Twizzles.

For both a) and b), each Twizzle shall be at least one full rotation on one foot performed simultaneously (at the same time) by both partners, for example:

- side by side in the same direction (matching)
- or side by side in opposite directions (mirror)
- or following one another (one skating forward and/or backward and the other skating forward and/or backward)

13. *Solo Spin (Pirouette)* – A spinning movement performed on one foot on the spot by one partner alone (with or without the assistance of the other partner) or by both partners simultaneously (around separate centers);

14. Dance Spin

- a) *Spin* – A spin skated by the Couple together in any hold. It should be performed on the spot around a common axis on one foot by each partner simultaneously;
- b) *Combination Spin* – A spin performed as above after which one change of foot is made by both partners simultaneously and further rotations occur;
- c) *Basic Positions in Dance Spins*
 - i) *Upright Position* – Performed on one foot with skating leg straight or slightly bent and upper body upright (on a nearly vertical axis), arched back or bent to the side.
 - ii) *Sit Position* – Performed on one foot with skating leg bent in a one-legged crouch position and free leg forward, to the side or back;
 - iii) *Camel Position* – Performed on one foot with skating leg straight or slightly bent and body bent forward and free leg extended or bent upward on a horizontal line or higher.

15. Leg and Foot Positions

- a) *Coupée* – The free foot is held up in contact with the skating leg from an open hip position so that the free foot is at a right angles to the leg of the skating foot;
 - b) *Passé* – The free foot is brought up to the side of the skating leg from a closed hip position so that the free foot is parallel to the leg of the skating foot;
 - c) *Attitude* – The free leg is bent, and brought up out and behind at a ninety degree angle to the leg of the skating foot.
16. *Dance Lift* – A movement in which one of the partners is elevated with active and/or passive assistance of the other partner to any permitted height, sustained there and set down on the ice. Any rotations and positions and changes of such positions during the lift are permitted. Lifts should enhance the music chosen and express its character and should be performed in an elegant manner without obvious feats of strength and awkward and/or undignified actions and poses. Types of Dance Lifts are classified as follows:

Short Lifts – the duration of the lift should not exceed six (6) seconds

- a) *Stationary Lift* – A lift that is executed on the spot (stationary location) by the lifting partner who may or may not be rotating;

- b) *Straight Line Lift* – A lift in which the lifting partner travels in a straight line in any position on one foot or two feet;
- c) *Curve Lift* – A lift in which the lifting partner travels on one curve (lobe) in any position on one foot or two feet;
- d) *Rotational Lift* – A lift in which the lifting partner rotates in one (clockwise or anticlockwise) direction while travelling across the ice.

Combination Lifts – the duration of the lift should not exceed twelve (12) seconds. A lift combining:

- e) two Rotational Lifts (as per paragraph d) above): in different directions;
- f) two Curve Lifts: on two different curves forming a serpentine pattern;
- g) *two different Types of Short Lifts a), b), c) or d) above.*

Illegal Lift Movement/Pose – The following movements and/or poses during the lift are illegal:

- a) lying or sitting on the partner's head;
- b) sitting or standing on the partner's shoulder or back;
- c) lifted partner in upside down split pose (with sustained angle between thighs more than 45 degrees);
- d) lifting partner swinging the lifted partner around;
 - i) by holding the skate(s)/boot(s) or leg(s) only with fully extended arm(s) or without the assistance of hand(s)/arm(s) or;
 - ii) by holding the hand(s) with full arm extension by both partners.
- e) point of contact of the lifting hand/arm of the lifting partner with any part of the body of the lifted partner is not sustained higher than the lifting partner's head;
- f) hand/arm which is used for support or balancing only or which touches any part of the body of the lifted partner is not sustained by the lifting partner higher than his head for more than 2 seconds.

A brief movement through poses a) to e) will be permitted if it is not established (sustained) or if it is used only to change pose.

17. *Jumps*

- a) *Jump* – A jump of not more than one (1) revolution, which may be executed by only one (1) partner at a time. This jump may be performed either in hold or separated;
- b) *Dance Jump* – A small jump not more than ½ a revolution, used to change foot or direction. Such jumps may be performed either in hold or separated. Both partners may jump at the same time;

- c) *Hop* – A small jump without revolution.

18. *Types of Movements*

- a) *Crouch* – A two-footed movement in which a Skater travels along the ice with both legs bent at an angle;
- b) *Ina Bauer* – A two-footed movement in which the Skater travels along the ice with one foot on a forward edge/tracing and the other on a matching backward edge/tracing on a different but parallel tracing;
- c) *Lunge* – A movement in which a Skater travels along the ice with one leg bent and the other leg directed behind with the boot/blade touching the ice;
- d) *Pivot* – A two footed movement in which the toe picks of one foot are inserted into the ice by a Skater as a central pivoting point while the other foot travels in a circular pattern around the pivot point;
- e) *Shoot the Duck* – A one foot movement in which a Skater travels along the ice with one leg in a strongly bent position and the other leg directed forward parallel to the ice;
- f) *Spread Eagle* – A two-footed movement in which a Skater travels along the ice with one foot on a forward edge/tracing and the other on a matching backward edge/tracing on the same tracing.

19. *Choreographic Element* – Listed or unlisted movement or series of movement(s) as specified by the Ice Dance Technical Committee.

Rule 705

Dance Holds

1. *Hand-in-Hand Hold*

- a) Facing in same direction – The partners face in the same direction and are skating side by side or one behind the other with their arms extended and their hands clasped. A variation of this is the arm-in-arm side by side hold;
- b) Facing in opposite directions – The partners usually face each other while one skates backward and the other skates forward with the arms extended to the side but sometimes the hold can be skated back to back (example: Steps 22 to 25 in the Cha Cha Congelado).

2. *Closed or Waltz Hold* – The partners are directly opposite each other. One partner faces forward while the other partner faces backward. The Man's right hand is placed firmly on his partner's back at the shoulder blade with the elbow raised and the arm bent sufficiently to hold the Lady close to him. The left hand of the Lady is placed at/on the shoulder of the Man so

that her arm rests comfortably, elbow to elbow, on his upper arm. The left arm of the Man and the right arm of the Lady are extended comfortably at shoulder height. Their shoulders remain parallel.

3. a) *Open or Foxtrot Hold* – The hand and arm holds are similar to those of the Closed or Waltz Hold. The partners simply turn slightly away from each other so that they both face in the same direction;
- b) *Crossed Foxtrot Hold* – The partners are in the same hold as above except that the Man's right arm passes behind the Lady and his right hand is on her right hip, and the Lady's left arm passes behind the Man and her left hand is on his left hip.
4. *Outside or Tango Hold* – The partners face in opposite directions – one partner skating forward; the other partner backward. However, unlike the Closed Hold, the partners are offset with the Man to the right or left of the Lady so that the front of his hip is in line with the front of her corresponding hip. Tight hip-to-hip position is undesirable since it impedes flow.
5. a) *Kilian Hold* – The partners face in the same direction with the Lady to the right of the Man and his right shoulder behind her left. The left arm of the Lady is extended across the front of the Man's body to hold his left hand. His right arm crosses behind the Lady's back to clasp her right hand. Both right hands rest over her hip bone;
- b) *Reversed Kilian Hold* – This hold is similar to the Kilian Hold but with the Lady at the Man's left;
- c) *Open Kilian Hold* – The Man's left hand holds the Lady's left hand, with his right hand resting over the Lady's left hip or behind her back. The Lady's right arm is extended. This hold may also be reversed;
- d) *Crossed Kilian Hold* – The Lady's left arm is extended across the front of the Man's body to his left hand, while his right arm is extended across in front of her body with both partners' right hands resting clasped over her hip. This hold may also be reversed;
- e) *High Kilian Hold* – A Kilian Hold in which one pair of the joined hands are elevated to slightly above shoulder height with the elbows slightly bent (example: Steps 3 to 12 in the Yankee Polka).
6. *Leading Hand* – The leading hand of the Man is the right hand except in the case of "Reversed" hold when it is the left hand.
7. *Promenade* – A type of "progressive" skated in Open Hold by a Couple on the same (example: Steps 9 to 11 in the Blues) or opposite (example: Steps 16 to 19 in the Tango) feet derived from a similar forward walking movement in some ballroom dances.

Note: photographs of all Dance Holds listed above are found in the ISU Handbook Ice Dance 2003. In certain cases, some Dance Holds cannot be defined by standardized descriptions.

Rule 706

Musical definitions

1. *Beat* – A note defining the regular recurring divisions of a piece of music.
2. *Tempo* – The speed of music in Beats or Measures per minute.
3. *Rhythm* – The regularly repeated pattern of accented and unaccented Beats which gives the music its character.
4. *Measure (Bar)* – A unit of music which is defined by the periodic recurrence of the accent. Such units are of equal number of Beats.
5. *Strong Beat* – The first Beat of the Measure or group of two Measures supporting the skating count of the Rhythm.
6. *Weak beat* – For Rhythms with a skating count on two Measures, the first Beat of the second Measure (examples: skating count 3 of the Quickstep; skating count 4 of the American Waltz). The skating count of each Rhythm is explained in the ISU Ice Dance Rhythms Booklet & Compact Disc.

B. Pattern Dances

Rule 707 Introduction

1. Pattern Dances involve the skating of prescribed Patterns to music with a defined Rhythm and Tempo.

Foxtrot	Rhumba
Rocker Foxtrot	
 - d) For six (6) Sequences of the dance:

4. The Referee may announce the approximate location at which the Pattern Dances must be started. All Pattern Dances shall be started so that the steps of the first side of the pattern are skated in front of the Judges unless otherwise specified by the Referee or directed by the Ice Dance Technical Committee in an ISU Communication. If the Referee changes the side to start, the change must be announced at the time of the first draw for starting order.
 5. In International Competitions, the current series of ISU Ice Dance music shall be used for the Pattern Dance unless the Ice Dance Technical Committee has decided that the music for one or several Pattern Dances is to be provided by the Couple, following certain requirements, as announced in an ISU Communication. In this case, Pattern Dance music that does not adhere to these specifications will be penalized by deduction(s) (see Rule 353, paragraph 1. n).
- When ISU Ice Dance music is used, five (5) pieces of music will be played, unless otherwise directed in an ISU Communication, for each Pattern Dance from ISU tunes 1 to 5. For each starting group the music will be played in the above mentioned numerical order. The last (sixth) tune of each dance shall be only used during the warm-up of each starting group.
6. An interrupted Pattern Dance shall be resumed at the nearest technically practicable point in the step sequence and which must be after the point of interruption. The Couple may not skate the steps missed by the interruption.

Rule 708

Requirements and marking

1. General requirements for Pattern Dances

During the skating of the Pattern Dances, the following must be observed:

- a) *Accuracy* – The steps, edges, elements/movements and dance holds must be in accordance with the dance description and the Rules. Subject to general conformity with the basic requirements, some latitude is given to allow a Couple to demonstrate their own individual style. This is usually accomplished by the use of a variety of arm and/or leg movements. Movements or positions of arms and/or hands, which differ from those specified in the descriptions of the

required dance holds are permitted, provided that the Leading Hand of the Man remains in the prescribed position for the hold;

- b) *Placement* – The pattern of the dances must be in accordance with the Rules. Maximum utilization of the ice surface is desirable, which requires deep edges and good flow. Ice coverage must not be obtained by the use of flat or shallow edges. In a regulation-sized rink (Rule 342), the Couples may not cross the Long Axis. In rinks less than regulation-size, the Couple may cross the Long Axis proportionally to the width of the rink;
- c) *Skating Skills* – Good basic skating quality is required:
Deep edges should be skated with speed, flow and easy glide in an effortless manner. Cleanness and sureness of steps, edges and lobe transitions should be evident. The Skater must carry the weight over the skating foot. Footwork must be neat and precise. Two-footed skating must be avoided except where it is required. Good and equal technical ability are required for both partners. The knee of the skating leg should be flexible with a rhythmic rise and fall. On Chassés and Progressives the feet should be lifted a small distance from the ice;
- d) *Timing* – The dances must be skated in strict time to the music with the start of the first step of the dance on beat 1 of the 9th measure of the particular tune (unless otherwise specified in the description of the Pattern Dance or by the Ice Dance Technical Committee and announced in an ISU Communication). The prescribed number of beats employed for each step/movement must be in accordance with the Rules. All movements must be coordinated with the rhythm of the music so that all steps are completed without any break in continuity;
- e) *Style* – Carriage should be upright but not stiff with the head held up. All actions should be easy and flowing and performed in an elegant manner. The Dance Holds (see Rule 705), should be firm and the fingers neither spread nor clenched. There should be no apparent struggle for speed and speed should not be obtained at the expense of good style. The free leg should be extended; the foot turned out and pointed down;
- f) *Unison* – The Couple should skate as close together as possible keeping a constant distance between them. All movements such as leg swings, knee bends and lean should be equal and well coordinated and their performance should be balanced. The partners should move as one. The Man should show his ability to lead and the Lady to follow;
- g) *Interpretation* – The dance must be skated smoothly and rhythmically with the character of the music being correctly interpreted. Such

interpretation shall be shown by variations in the execution of the dance movements, which reflect the rhythm patterns in the music. The overall effect should be such that each Pattern Dance has a distinct flavor. The partners should relate to one another.

2. Required Sections of Pattern Dances

The pattern of each Pattern Dance may be divided into a certain number of Sections published and updated in ISU Communication. The number of Sections of the particular dance depends on its length (number of steps) and number of Sequences in the dance.

3. Marking Pattern Dances

a) Technical Score

i) Scale of Values

A table with the Scale of Values of the Sections of the Pattern Dances is published and updated in ISU Communications. This Scale of Values (SOV) contains Base Values of all the Sections of each Pattern Dance and adjustments for the correctness and quality of their execution;

ii) Levels of Sections

For International Novice Competitions and for competitions having specified such procedure in their Announcement, Technical Specialists will determine the Level of every Section in the Pattern Dance (if a description of Levels of Sections and corresponding Scale of Value are available for that Pattern Dance in an ISU Communication);

Sections are divided into four (4) Levels. The description of characteristics that give a Section a certain Level is published and updated in ISU Communications for Pattern Dances included in International Novice Competitions and, if possible, other Pattern Dances;

iii) Grade of Execution (GOE)

Every Judge will mark the quality of execution of every Section of the Pattern Dance depending on the positive features of the execution and errors on the seven grades of execution scale: +3, +2, +1, Base Value, -1, -2, -3. Each + or - grade has its own + or - numerical value indicated in the SOV Table. This value is added to the Base Value of the Section or deducted from it;

The guidelines for marking of Sections are published and updated in ISU Communications.

b) Components Score

i) Component definitions

In addition to the Technical Score each of the Judges will evaluate the Couple's whole performance which is divided into four (4) Components in the Pattern Dances (Skating Skills, Performance/Execution, Interpretation, Timing);

SKATING SKILLS

Definition:

The method used by the Couple to perform dance steps and movements over the ice surface and the efficiency of their movement in relation to speed, flow and ice coverage;

Criteria:

- Overall skating quality
- Flow and glide
- Speed and power
- Balance of technique and skating ability of partners
- Ice coverage

PERFORMANCE/EXECUTION

Definition:

The ability of the partners to demonstrate unison, body alignment, carriage, style and balance of performance while executing Pattern Dances in order to exhibit a pleasing appearance through coordinated movement, body awareness and projection;

Criteria:

- Unison and body alignment
- Distance between partners
- Carriage and style
- Balance in performance between partners

INTERPRETATION

Definition:

The ability of the Couple to express the mood, emotions, and character of the Pattern Dance rhythm by using the body moves, steps and holds of the dance to reflect the structure and character of the music;

Criteria:

- Expression of the character of the rhythm
- Relationship between partners reflecting the nature of the dance

TIMING

Definition:

The ability of the Couple to skate strictly in time with the music and to reflect the rhythm patterns of a Pattern Dance correctly;

Criteria:

- Skating in time with the music
- Skating on the strong beat
- Start of the first Step

ii) Marking of Components

Components are evaluated by Judges after the completion of the dance on a scale from 0.25 to 10 with increments of 0.25. Points given by the Judges correspond to the following degrees of the Components: <1- extremely poor, 1 very poor, 2 - poor, 3 -weak, 4 - fair, 5 - average, 6 - above average, 7 - good, 8 - very good, 9 to 10 - outstanding. Increments are used for evaluation of performances containing some features of one degree and some of the next degree.

Guidelines for judging are published and updated in ISU Communications;

c) Deductions

Deductions are applied for certain violations according to Rule 353.

C. Short Dance

Rule 709

1. General Requirements for the Short Dance

- a) Short Dance is a dance created by an Ice Dance Couple to dance music with designated rhythm(s) and/or theme(s) selected by the Ice Dance Technical Committee annually for the season. The dance must:
- i) reflect the character of the selected dance rhythm(s) or theme(s);
 - ii) be translated to the ice by demonstrating technical skill with steps and movements along with flow and the use of edges;
 - iii) fit to the phrasing of the music.

Couples must skate primarily to the rhythmic beat. The dance will contain elements selected by the Ice Dance Technical Committee from the list of required elements specified in paragraph 2 below. Elements should be integrated into the composition of the dance so the concept and choreography must produce the feeling of a unified dance. The rhythm (or group of rhythms) and/or theme(s) as well as the guidelines and technical requirements for the Junior and Senior programs, including specified elements will be decided annually by the Ice Dance Technical Committee and published in an ISU Communication;

- b) The duration of the Short Dance is indicated in Rule 502, paragraph 3;
- c) The music for the Short Dance, including music for the specified Pattern Dance (if required) is to be provided by the Couple. Vocal music is permitted. The music must have the following characteristics:
- i) Only dance music with an audible rhythmic beat may be used. The music may be without an audible rhythmic beat for up to ten (10) seconds at the beginning of the program;
 - ii) The music must be selected in accordance with the designated rhythm(s) and/or theme(s);
 - iii) The music must be selected in accordance with the specified tempo, when applicable.

Short Dance music that does not adhere to these specifications will be penalized by deduction(s) (see Rule 353, paragraph 1. n). The Couple is required to submit the name/title of the selected music and the rhythm(s)/theme(s) of their program when registering their music for the information of the Referee and Judges;

- d) The pattern must proceed in a generally constant direction and must not cross the Long Axis of the ice surface except once at each end of the rink (within no more than twenty (20) meters of the barrier). Loops in either direction are permitted provided that they do not cross the Long Axis (unless specified by the Ice Dance Technical Committee and announced in an ISU Communication);
- e) All dance steps, turns, rotations and changes of position are permitted provided that they are appropriate to the designated rhythm(s) and the music chosen. Repetition of any steps, turns and movements is permitted. Difficult, original, varied and intricate footwork is required for both partners;
- f) There are no restrictions on Dance Holds (or variation thereof). Skating in Hand-in-Hand Hold with fully extended arms is permitted only if in the character of the rhythm chosen, but must not be used excessively;
- g) Partners must not separate except to change hold or to perform Required Elements requiring a separation. Turns as transitional elements and moves during the permitted stops. The distance between partners during such separations should not exceed two arm lengths. Change of hold and Turns as transitional elements must not exceed the duration of one measure of music. Separations at the beginning and/or end of the program may be up to ten (10) seconds in duration without restrictions on the distance of the separation;
- h) After the clock is started with the first movement, the Couple must not remain in one place for more than ten (10) seconds. During the program up to two (2) full stops in addition to stops required in Required Elements are permitted (duration must not exceed five (5) seconds each) unless otherwise specified in an ISU Communication;
- i) The program must be developed through skating skill and quality rather than through non-skating actions such as sliding on one knee, or use of toe steps which should be used only to reflect the character of the dance and underlining rhythm and nuances of the chosen music. In the interest of the public in the arena, programs should be choreographed to all sides of the arena and not only focused to Judges' side;
- j) Touching the ice with the hand(s) is not permitted;
- k) Kneeling or sliding on two knees, or sitting on the ice is not allowed and it will be considered by the Technical Panel as a Fall.

2. **Required Elements**

The list of Required Elements to be included into composition of the Short Dance and specific requirements for these elements will be announced in an ISU Communication annually.

The following are options that may be included as Required Elements:

- Dance Lift(s) – see Rule 704, paragraph 16;
- Dance Spin(s) – see Rule 704, paragraph 14 e;
- Set(s) of Twizzles – see Rule 704, paragraph 12;
- Step Sequence(s) – see Rule 703, paragraph 4;
- Pattern Dances Element(s) – see Rule 703, paragraph 6 (Pattern Dance Element as per Rule 703, paragraph 6.a) or 6.b) included in the Junior Short Dance as set Required Elements);
- Choreographic Element (not more than one) – see Rule 704, paragraph 19.

3. **Illegal Elements/Movements**

The following elements and movements are illegal in the Short Dance unless otherwise stated in an ISU Communication:

- Illegal Lift Movement/Pose – see Rule 704, paragraph 16;
- Jumps (or throw jumps) of more than one (1) revolution or jumps of one (1) revolution skated at the same time by both partners;
- Lying on the ice.

D. Free Dance

Rule 710

1. **General Requirements for the Free Dance**

- a) Free Dance is the skating by the Couple of a creative dance program blending dance steps and movements expressing the character/rhythms(s) of the dance music chosen by the Couple;

The Free Dance must contain combinations of new or known dance steps and movements including Required Elements composed into a well balanced, whole unit displaying excellent skating technique and the personal creativity of the Couple in concept, arrangement, and expression. The program, including Required Elements, must be skated in time and phase with the music. The Couple should skate primarily in time to the rhythmic beat, and not to the melody alone. The choreography should clearly reflect the dance character, accents and

nuances of the chosen dance music, demonstrating a close relationship between partners with obvious, distinct changes of mood and pace with variations in speed and tempo. The program must utilize the whole ice surface. The Free Dance must not have the concept of a Pair or show program;

- b) The duration of the Free Dance is indicated in Rule 502, paragraph 4;
- c) The music for Free Dance may be vocal and must be suitable for Ice Dance as a sport discipline and must have the following characteristics:
 - i) The music must have an audible rhythmic beat and melody, or audible rhythmic beat alone, but not melody alone, and may be vocal. The music may be without an audible rhythmic beat for up to ten (10) seconds at the beginning or end of the program and up to ten (10) seconds during the program.
 - ii) The music must have at least one change of tempo and expression. These changes may be gradual or immediate, but in either case they must be obvious.
 - iii) All music including classical music must be cut/edited, orchestrated or arranged in a way that it creates an interesting, colorful, entertaining dance program with different dance moods or a building effect.
 - iv) The music must be suitable for the Couple's skating skills and technical ability.

Free Dance music that does not adhere to these requirements will be penalized by a deduction (see Rule 353, paragraph 1.n).

- d) All steps and turns are permitted. Deep edges and intricate footwork displaying skating skill, difficulty, variety and originality that constitute the distinct technical content of the dance must be included in the program and performed by both partners. In the interest of the public in the arena, programs should be choreographed to all sides of the arena and not only focused to Judges' side;
- e) All elements and movements are permitted provided that they are appropriate to the character of the music and to the concept of a Well Balanced Program and are in accordance with the definitions in Rule 704;
- f) The number of separations to execute transitional footwork or moves is not restricted. The distance between partners should not exceed two arms lengths. The duration of each such separation, outside of Required Elements requiring a separation, must not exceed five (5) seconds. Separations at the beginning and/or end of the program may be up to ten (10) seconds in duration without restrictions on the distance of separation;

- g) All changes of hold are permitted. Many and varied holds increase the difficulty of the program and therefore, should be included. Skating face to face is considered to be more difficult than skating side by side, hand in hand, separately or one after the other;
- h) After the clock is started with the first movement, the Couple must not remain in one place for more than ten (10) seconds. During the program full stops (up to five (5) seconds) in addition to stops required in Required Elements, in which the Couple remains stationary on the ice while performing body movements, twisting, posing and the like are permitted;
- i) The program must be developed through skating quality rather than through non-skating actions such as sliding on one knee, or use of toe steps which should be used only to reflect the character of the dance and underlining rhythm and nuances of the chosen music;
- j) Touching the ice with the hand(s) is not permitted;
- k) Kneeling or sliding on two knees, or sitting on the ice is not allowed and it will be considered by the Technical Panel as a Fall.

2. Well Balanced Free Dance Programs

The list of Required Elements to be included in a Well Balanced Program for Novice, Junior and Senior Free Dances and the specific requirements for those elements will be announced in an ISU Communication annually.

The following are options that may be included as Required Elements:

- Dance Lift(s) – see Rule 704 paragraph 16;
- Dance Spin(s) – see Rule 704 paragraph 14 e;
- Step Sequence(s) – see Rule 703 paragraph 4 (Groups A and B);
- Set(s) of Synchronized Twizzles– see Rule 704 paragraph 12.b);
- Choreographic Element (not more than one) – see Rule 704, paragraph 19.

3. Illegal Elements/Movements

The following elements and movements are illegal in the Free Dance unless otherwise stated in an ISU Communication:

- Illegal Lift Movement/Pose – see Rule 704, paragraph 16;
- Jumps (or throw jumps) of more than one (1) revolution or jumps of one (1) revolution skated at the same time by both partners;
- Lying on the ice.

**E. Announcement and draw of Pattern Dances and
announcement of requirements for Short Dance and Free Dance**

Rule 711

1. For Novice International Competitions, the lists of Pattern Dances will be announced annually by the Ice Dance Technical Committee in an ISU Communication not later than June 1st, to become effective on July 1st of the year following the announcement. For other International Competitions which include a Pattern Dance(s) Segment, the Pattern Dance(s) to be skated may be decided by the Organizers and included in the Announcement. If a draw is required, the Pattern Dance(s) to be skated shall be drawn on site and announced prior to the first official practice. The draw shall be carried out by the Referee in the presence of, if possible, one participating Couple.
2.
 - a) The specific requirements for the Short Dance and Free Dance will be decided annually by the Ice Dance Technical Committee and announced in an ISU Communication;
 - b) The specific requirements announced for the Short Dance and Free Dance must be used at all ISU Championships and International Competitions during the year, from July 1st to June 30th, for which they are announced.
3. All Communications concerning technical requirements must be published before June 1st except for pending decisions as a result of a Congress, clarifications and additional examples which may be published as needed.
