ISU – Minimum Technical Element Scores

All Skaters, Coaches and Officials are advised of the following 'Decisions of ISU Council' referred to in ISU Communication 2017 - Minimum Technical Element Scores.

ISU Figure Skating Championships 2017 – Minimum Technical Elements Scores

Taking into account the expected number of entries into the Short Program/Short Dance at the ISU Figure Skating Championships for the season 2016/17 and the related time schedule, the reasonable maximum officiating time for the Officials, limits in the number of participants and related workload an Organizing Committee can be expected to handle physically and financially as well as implications with commercial partners, the Council concluded that the Minimum Technical Elements Scores as per the Special Regulations, Rule 378, paragraph 3 must be determined for all ISU Figure Skating Championships in order to limit the number of entries to the appropriate level.

2016 Technical Regulations Communication No 98

The required Minimum Technical Elements Score for the Short Program/Short Dance and the Free Skating/Free Dance to participate in **Senior ISU Championships** (ISU European Figure Skating Championships, ISU Four Continents Figure Skating Championships and ISU World Figure Skating Championships) **can only be obtained in Senior International Competitions.**

Likewise, the required Minimum Technical Elements Score for the Short Program/Short Dance and the Free Skating/Free Dance segment to participate in the **ISU World Junior Figure Skating Championships can only be obtained in International Junior Competitions.**

The Minimum Technical Elements Score (not including Component Scores) is a Technical Score and must have been reached in an ISU recognized International Competition (as per Article 38, paragraph 7 of the ISU Constitution and Rule 107, paragraphs 1 to 9 of the ISU General Regulations) during the ongoing or immediately preceding season in both segments, Short Program/Short Dance and Free Skating/Free Dance (See ISU Special Regulations Single & Pair Skating Ice Dance, Rule 378, paragraph 3).

While the Minimum Technical Elements Score must be reached separately in each segment (not a total of the two segments), the Minimum Technical Elements Score for each segment may be reached at different competitions.

The Council also decided that the Minimum Technical Elements Score must be reached **21** (twenty-one) days before the first day (first official practice day) of the Championships concerned (same as entry deadline).

The Council agreed that if it became evident that the number of entries based on the Minimum Technical Elements Scores listed above would be significantly higher or lower than expected, the ISU Council reserves the right to subsequently slightly re-adjust the Minimum Technical Elements Scores in order to achieve the above-mentioned objective.
