

Lausanne, August 21, 2018

**To: ISU Members and Organizing Members of ISU Events in 2018/19**

### **ISU “Inside Events” mobile application**

Ladies and Gentlemen,

The ISU is pleased to inform you that it has launched a new mobile application (app) called "Inside Events", with the goal to provide better communication during ISU Events. The app will contain all information related to an ongoing event, which is normally printed and distributed on site and/or available online. The app will make information delivery faster, contain all relevant information for participants, reduce paper needs and notify participants in case of any changes or urgencies through push notification possibilities.

The “Inside Events” app is available free of charge on Android and Apple systems and compatible with both tablets and smartphones. The app is based on technology that was tested during the ISU World Figure Skating Championships 2018 in Milano and the ISU World Cup Speed Skating Final 2018 in Minsk.

Each ISU Event will have its own unique password that will be provided on site to participating Athletes, Officials, Team Delegations, LOC staff and ISU Office Holders.

For ISU Championships and the ISU Grand Prix of Figure Skating Final 2018/19 (Junior and Senior), media representatives will be provided with a separate password which will enable access to media related information only.

**Please note** that the app is aimed at participants of a specific Event and is not aimed at the general public or fans. Therefore the passwords must not be shared with individuals that are not part of a delegation and the app is not to be promoted publicly (including any online platform) nor to the spectators or fans attending an Event.

A handwritten signature in blue ink, appearing to read 'P. Mayor', is positioned above the printed name.

Patricia Mayor
